

Rolleston College Senior 2 Course Selection for Year 11 2020

All learners will be working toward completing their NCEA Level 2 qualification. To do this you must choose 5 courses for each semester. One of these courses must be from the literary rich category and at least one must be from the Science rich or Maths rich category (exemption from this must be applied for).

A course in literacy, science and/or maths is compulsory at Level 2 (unless exemption is applied for).

Learners should ensure that their course selection is appropriate for their desired pathway.

Course Selection Process

Please read through all of the course descriptors that are in Schoolpoint and complete the course selection process on Schoolpoint.

You will need to pick your desired course from each line of the timetable for the 2 semesters.

Once you have completed this course selection on Schoolpoint you will need to discuss your choices with your parents/caregivers who need to approve these courses on Schoolpoint via their Kamar Portal access. Talk to your Ako teachers and any other teachers who might offer you guidance around these courses. The final selections will be done online. More instructions will follow.

All courses must be chosen on Schoolpoint by the 25th September 2020

Checklist

- Have you read over the different courses you have available to you?
- Have you discussed your preferred choices with your parents/caregivers and Ako coach?
- Have you completed the course selection on Schoolpoint?
- Have you selected 5 courses in each Semester including a literacy rich course and a Maths or Science Course?

What courses do you want to know more about? Seek out the Learning Area Leader to find out more.
